

1. DR xx — xx

Status: Open

Subject: Optionality of the attribute @pic in CT_OLeObject

Qualifier: Technical defect

Submitter: MURATA Makoto **Organization:** JISC

Contact Information: eb2m-mrt@asahi-net.or.jp

Submitter's Defect Number: None

Supporting Document(s): None

Date Circulated by Secretariat: 1900-01-01

Deadline for Response from Editor: 1900-01-01

IS 29500 Reference(s): Parts 1 and 4, A.3, "PresentationML"

Related DR(s): None

Nature of the Defect:

The attribute @pic in CT_OLeObject is optional in the transitional pml.xsd, but it is required in the strict pml.xsd. This difference does not break the subset relationship, but makes the conversion from "Transitional" to "Strict" unnecessarily difficult.

Solution Proposed by the Submitter:

Either make this attribute optional in the strict pml.xsd, or make it required in the transitional one.

Schema Change(s) Needed: Yes

Editor's Response:
