1. DR xx — xx

Status: Open

Subject: A required attribute @val only in the conformance class "Transitional"

Qualifier: Technical defect

Submitter: MURATA Makoto   **Organization:** JISC

Contact Information: eb2m-mrt@asahi-net.or.jp

Submitter's Defect Number: None

Supporting Document(s): None

Date Circulated by Secretariat: 1900-01-01

Deadline for Response from Editor: 1900-01-01

IS 29500 Reference(s): Part 4, A.1, WordprocessingML"

Related DR(s): None

Nature of the Defect:

The complex type CT_Charset in the transitional wml.xsd contains

  <xsd:attribute name="val" type="ST_UcharHexNumber" use="required" />

but this attribute is not present in the strict wml.xsd. This discrepancy implies that some strict documents cannot be converted to transitional documents without adding this attribute. Namespace renaming is not good enough.

Solution Proposed by the Submitter:

Either introduce the same attribute to Part 1, or make this attribute optional in the conformance class "Transitional".

Schema Change(s) Needed: Yes

Editor's Response:
